

Paint Sprayer

Mercia Garden Products LTD – Newark-on-Trent NG23 6QN

Sponsor this job

Job Description

At Mercia, we have been championing the Great British shed for over 140 years. We manufacture and deliver over 100,000 wooden buildings every year for more than 100 different retailers, from major DIY and high street brands to online specialists.

We have recently introduced a Ready Painted Service to our products. This is available across our shiplap sheds, summerhouses, greenhouses, playhouses, and insulated garden rooms. We use premium, fully opaque paint that offers exceptional durability with a low maintenance finish. The paint will act as a preservative to protect against weathering, UV degradation, mould, and fungal attack.

As a Ready Painted Service Operator, you will be responsible for ensuring that all garden buildings are finished to the highest standard and meet the customer's expectations.

Skills Needed:

- You will need to be thorough and have excellent attention to detail.
- You will need to be able to work well under pressure and ensure all targets are met. Previous experience with paint spraying is preferable.

We are looking for immediate starters.
